Demo

- I. Nuventive Improvement Platform – Essential edition - Demo
 - i. This includes additional managed services, additional Nuventive Improve Analytics services and Nuventive Connect-LMS.
 - ii. The new Platform architecture, focused on ease-of-use, will allow you to create custom pages with html fields: unify all of a Program's needs into one unit (academic outcomes assessment, program review, operational plans); have full screen, split screen and thumbnail views of information when working on plans; ability to create and display dashboards of Nuventive Improve Analytics Reports by role; Quick Links to let you pause and jump to another location within the Platform to do something and then come back to finish working, and much more.
 - iii. Information shared through the Repository is limited to PDF, Word and Excel documents in addition to filterable Nuventive Improve Analytics reports.
 - iv. Follow up message to come

Updates
