

Oklahoma State University Alumni Survey

May 2000

Prepared by the Office of University Assessment

210 PIO Building

744-6687

Julie Wallin and Deanne Kramer

Executive Summary

The 2000 OSU Alumni Survey was conducted to identify institutional strengths and areas for improvement as indicated by recent graduates; to track the career and continuing education trends of recent OSU graduates; to assess achievement of learning outcomes as perceived by alumni from individual academic programs; and to accomplish the State Regent's mandate for assessing student and alumni satisfaction. The survey was conducted in January and February 2000 and targeted alumni of baccalaureate programs who graduated between spring 1998 and summer 1999. Only alumni from academic departments or colleges that elected to participate in the survey were included in the target population; this included the entire College of Business Administration, the entire College of Human Environmental Sciences, eleven departments in the College of Arts and Sciences, eight departments in the College of Agricultural Sciences and Natural Resources, and six departments in the College of Engineering, Architecture, and Technology. The survey was administered as a telephone interview and included common questions (related to employment and continuing education) and questions related to program outcomes for each degree program.

- *Response Rate.* Almost 1,600 telephone interviews with OSU alumni were completed, resulting in a response rate of 54.4%. When adjusted for alumni for whom a telephone number could not be determined and alumni who could not be reached in the U.S., the response rate to the survey was 81.7%.
- *Residency.* An estimated 74% of the alumni who participated in the survey were living in Oklahoma, and 26% were contacted out-of-state. Because the survey did not attempt to reach alumni who were not in the U.S., the number of alumni who no longer live in Oklahoma may be underestimated.
- *Employment.* Seventy-six percent of alumni reported that they were employed. Most alumni reported working for large corporations (40%) or small corporations or businesses (30%); 10% were employed by government agencies, and 11% were employed by educational institutions. Alumni most frequently reported that their annual salary was in the range of \$26,000 to \$35,000 per year. Ninety-three percent of employed alumni reported that their OSU education had prepared them very well or adequately for their current position.
- *Continuing Education.* Twenty-seven percent of alumni were enrolled in graduate programs or professional schools. Almost 60% of these were enrolled in OSU graduate programs. Seventy-one percent were pursuing master's or doctoral degrees, 9% were pursuing law degrees, 7% were pursuing medical degrees, 4% were pursuing business degrees, and 4% were attending schools of veterinary medicine. Ninety-four percent of alumni who were attending graduate or professional school stated that their OSU education had prepared them very well or adequately for their continued education.
- *Overall Satisfaction.* Over 97% of alumni reported that they were very satisfied or somewhat satisfied with their overall educational experience at OSU. Ninety-five percent stated that they were very satisfied or somewhat satisfied with the quality of education in their major field of study. Over 90% of alumni reported that they were very well or adequately prepared in terms of computer skills, writing skills, and their abilities to identify and solve problems. Most alumni also stated that their OSU education had contributed to their understanding of responsible citizenship, diverse cultures, and current social and political issues.

Introduction

In a comprehensive assessment effort, many voices within an institution are necessary to gain a thorough understanding of the effectiveness of the curricula. Because the focus of assessment is on helping improve the preparation of graduates, one approach to addressing questions about preparation for the workplace is to ask graduates themselves (Banta and Palomba 1999). Alumni provide a logical source of evaluative feedback and a unique perspective on the application of curricula in practice.

Information from alumni also plays an important role in the process of academic assessment. Higher education in the United States has been undergoing critical scrutiny in the 1990s whereby parents, students, and government leaders alike are increasingly calling into question the value of a college degree. This scrutiny is fueled by the well-documented escalation of the costs of college attendance over the past two decades and concerns about the employment prospects and even the employability of college graduates (McGuire and Casey 1999). Against this backdrop, the pressure on colleges and universities to maximize and demonstrate effectiveness is at an all-time high. Because a college education is a lifelong investment with presumed dividends accruing for many years after graduation, it is logical to seek out answers to the public's legitimate concerns through alumni surveys. Data from alumni surveys can be a valuable part of assessment efforts aimed at providing public accountability as well as evaluative information that can be used for program improvement.

The Oklahoma State University alumni survey conducted in January and February 2000 sought, among other things, to identify the extent to which recent baccalaureate alumni were satisfied that they had received quality training in professional skills and abilities at OSU (Stillwater). The survey provided data to (1) identify institutional strengths and areas for improvement as indicated by recent graduates; (2) track the career trends of recent OSU graduates; (3) assess learning outcomes from individual academic programs, and (4) accomplish the State Regent's mandate for assessing student and alumni satisfaction.

Methods

Population. The target population for this survey was OSU-Stillwater baccalaureate degree recipients who graduated between May 1998 and August 1999. Only alumni from departments and colleges that elected to participate in the alumni survey were included in the target population (Table 1). This included the entire College of Business Administration, the entire College of Human Environmental Sciences, eight departments in the College of Agricultural Sciences and Natural Resources, eleven departments in the College of Arts & Sciences, and six departments in the College of Engineering, Architecture, and Technology. The College of Education did not participate in the survey. Several departments declined participation in this university-wide survey because they conducted their own program-specific alumni surveys.

The total number of OSU-Stillwater alumni in the target population was 2,910. This target population represented 65% of the total number of baccalaureate degrees granted from May 1998 through August 1999. The survey was conducted in January 2000; therefore, alumni were contacted 6 to 18 months after graduating from OSU.

Instrument Design. The Assessment Council and the individual academic departments that participated in the survey developed the survey instrument. The first part of the survey was developed by the Assessment Council and was given to all alumni. It included questions on current employment, continuing education, general education topics, and overall satisfaction. The second part of the survey was developed by each participating academic unit and was only given to alumni of that unit. This part of the survey focused on specific aspects of the alumnus' degree program and career preparation.

Survey Administration. The survey was administered as a telephone interview. The OSU Bureau for Social Research conducted the survey telephone interviews in January and February 2000 and coordinated data collection. The Office of University Assessment coordinated (a) the development of the survey instruments, (b) efforts to obtain accurate alumni telephone numbers, (c) data analysis, and (d) report preparation. The Office of Institutional Research provided alumni telephone numbers.

Results

Response Rate. A total of 1,584 alumni telephone interviews were completed, resulting in an overall response rate of 54.4% (Table 1). Out of the initial target population of 2,910 alumni, 970 alumni could not be reached because a 'permanent' telephone number was not given in the University's database, the available telephone number was incorrect, or the respondent was no longer residing in the United States. After accounting for these 'unreachable' alumni, the overall adjusted response rate was 81.7% (Table 1).

Out of the total population of survey respondents, 31% were alumni from the College of Business Administration, 25% were alumni from the College of Arts & Sciences, 22% were alumni from the College of Agricultural Sciences and Natural Resources, 13% were alumni from the College of Engineering, and 9% were alumni from the College of Human Environmental Sciences.

Table 1. Number of alumni in the target population (baccalaureate recipients from May 1998 through August 1999 from academic programs that elected to participate in the survey), number of completed telephone interviews, and response rates for each college and department. Response rate is the number of completed surveys divided by the initial number of alumni. The adjusted response rate is the number of completed surveys divided by the number of alumni who were 'reachable' (i.e., alumni for whom we had a valid U.S. telephone number).

	No. of Alumni	No. of Completed Surveys	Response Rate (%)	Adjusted Response Rate (%)
The Entire Survey Population:	2910	1584	54.4	81.7
College of Agricultural Sciences and Natural Resources – participating departments:				
Ag. Communication	33	26	78.8	89.7
Ag. Economics	113	84	74.3	91.3
Animal Science	218	143	65.6	83.6

Hotel & Restaurant Adm.	40	25	62.5	80.7
Nutritional Sciences	29	19	65.5	82.6

General Information About Alumni

Approximately 67% of alumni reported they were currently employed, 18% reported they were currently enrolled in graduate or professional school, and 9% reported they were *both* employed and in graduate school (Q1a). Of the 106 alumni (6.7%) who reported they were not currently employed or in graduate or professional school, about half said that they were currently seeking employment (n=54, Q1b).

Approximately 74% of the alumni who participated in the survey were living in Oklahoma and 26% were out-of-state. These percentages are estimated from the phone number area codes for the survey respondents. Because the survey did not attempt to reach alumni who were not in the U.S., the percentage of alumni who live outside of Oklahoma may be underestimated. Although area codes provided an estimate of alumni area of residence, future surveys will request zip codes so that alumni dispersion can be more accurately described.

Current Employment Information

Seventy-six percent of alumni (n=1,201) reported that they were employed or simultaneously employed and in graduate/professional school (Q1a). Of these, 93% were employed full-time (Q2). Approximately 40% of alumni survey participants described their employer as large corporations; 30% were employed by small corporations or small businesses; 10% were employed by government agencies; and 11% were employed by educational institutions (Q3). Appendix 1 summarizes the names of employers and job titles.

About 75% of alumni reported that their current position was highly or moderately related to their major field of study (Q4), and 12% reported that their current position was slightly related to their major. The most frequently reported annual salary range for alumni 6-18 months post-graduation was \$26,000 to \$35,000 per year (Q5). About 9% of alumni reported annual salaries of greater than \$45,000 per year, and less than 10% of alumni reported annual salaries of less than \$15,000 per year.

In general, 93% of alumni (n=967) responded that their undergraduate studies prepared them very well or adequately for their current position (Q6). Only respondents who reported that their current position was slightly, moderately, or highly related were included in this calculation.

Graduate/Professional School Information

Of the 1,584 alumni surveyed, 425 (27%) were currently enrolled in a graduate or professional school. Of these alumni, 66% were pursuing a masters degree, 9% were pursuing law degrees, 7% were pursuing medical degrees, 5% were pursuing doctoral (PhD) degrees, 4% were attending veterinary school, and 4% were pursuing business degrees (Q7a). Of the 425 alumni who were attending graduate school, almost 60% (n=250) were enrolled in graduate programs at Oklahoma State University, and 20% were attending graduate school at other Oklahoma institutions. Most alumni (94.4%) stated that their undergraduate studies at OSU had prepared them very well or adequately for graduate or professional school (Q8).

Alumni Perceptions of Overall Educational Experience

Alumni who participated in this survey expressed high overall satisfaction with their educational experience at OSU. Over 97% of alumni responded that they were very satisfied or somewhat satisfied with their overall educational experience (Q9). Ninety-five percent of alumni stated that they were very satisfied or somewhat satisfied with the quality of instruction in their major field of study (Q10).

The last section of the survey covered topics related to the University's mission and the philosophy of OSU's General Education program. Eighty-eight percent of alumni responded that their OSU education prepared them very well or adequately in their ability to use a computer (Q11), 96% of alumni responded that they were very well or adequately prepared in their ability to write effectively (Q12), and 98% of alumni responded that they were very well or adequately prepared in their ability to identify and analyze problems (Q13). Thirty-five percent of alumni responded that their OSU education had contributed 'very much' to their understanding of diverse cultures, and 51% responded that their OSU education had contributed 'somewhat' to this understanding (Q14). Twenty-three percent of alumni responded that their OSU education had contributed 'very much' to their understanding of current social and political issues, and 60% responded that their OSU education had contributed 'somewhat' to this understanding (Q15). Finally, 37% of alumni responded that their OSU education had contributed 'very much' to their understanding of responsible citizenship, and 49% responded that their OSU education had contributed 'somewhat' to understanding responsible citizenship (Q16).

This report summarizes data from the Common Questions that were given to all alumni. Alumni were also given a set of questions that were developed by the academic program from which they received their degree. Results of program-specific survey questions are summarized in separate reports prepared for each participating academic unit. If you would like to receive a copy of a specific report, please contact the OSU Office of University Assessment at 744-6687.

Q1a. Are you currently employed or enrolled in a graduate or professional school program?

Responses of all alumni:

	<u>n</u>	<u>%</u>
Employed	1053	66.5
Graduate / Professional School	277	17.5
Employed & Graduate School	148	9.3
Neither	106	6.7

Responses by College:

<u>Agriculture</u>	<u>n</u>	<u>%</u>
Employed	210	61.4
Graduate/ Prof. School	79	23.1
Empl. & Grad.	28	8.2
Neither	25	7.3

<u>Engineering</u>	<u>n</u>	<u>%</u>
Employed	140	70.7
Graduate/ Prof. School	18	9.1
Empl. & Grad.	34	17.2
Neither	6	3.0

<u>Arts and Science</u>	<u>n</u>	<u>%</u>
Employed	193	49.0
Graduate/ Prof. School	119	30.2
Empl. & Grad.	51	12.9
Neither	31	7.9

<u>Human Env. Sci.</u>	<u>n</u>	<u>%</u>
Employed	109	77.3
Graduate/ Prof. School	11	7.8
Empl. & Grad.	12	8.5
Neither	9	6.4

<u>Business</u>	<u>n</u>	<u>%</u>
Employed	401	78.8
Graduate/ Prof. School	50	9.8
Empl. & Grad.	23	4.5
Neither	35	6.9

Q1b. Are you currently seeking employment?

*Only asked of alumni who reported neither employed nor in graduate/professional school

Responses of all alumni:

	<u>n</u>	<u>%</u>
Yes	57	53.8
No	49	46.2

Responses by College:

<u>Agriculture</u>	<u>n</u>	<u>%</u>
Yes	13	52.0
No	12	48.0

<u>Engineering</u>	<u>n</u>	<u>%</u>
Yes	4	66.7
No	2	33.3

No	2	22.2

<u>Business</u>	<u>n</u>	<u>%</u>
Yes	19	54.3
No	16	45.7

Q2. Are you employed full time or part time?

Responses of all alumni:

	<u>n</u>	<u>%</u>
Full-time	1112	92.7
Part-time	88	7.3

Responses by College:

<u>Agriculture</u>	<u>n</u>	<u>%</u>
Full-time	216	90.8
Part-time	22	9.2

<u>Engineering</u>	<u>n</u>	<u>%</u>
Full-time	169	97.1
Part-time	5	2.9

<u>Arts and Sciences</u>	<u>n</u>	<u>%</u>
Full-time	202	82.8
Part-time	42	17.2

<u>Human Env. Sci.</u>	<u>n</u>	<u>%</u>
Full-time	114	95.0
Part-time	6	5.0

<u>Business</u>	<u>n</u>	<u>%</u>
Full-time	411	96.9
Part-time	13	3.1

Q3. Which of the following best describes your employer?

Responses of all alumni:

	<u>n</u>	<u>%</u>
Large corporation	490	40.8
Small corporation	212	17.7
Small business	152	12.7
Federal government	40	3.3
State government	46	3.8
Local government	27	2.2
Nonprofit organization	54	4.5
Educational institution or organization	137	11.4
Self-employed	43	3.6

Responses by College:

<u>Agriculture</u>	<u>n</u>	<u>%</u>
Large corporation	73	30.7
Small corporation	45	18.9
Small business	42	17.6
Federal government	9	3.8
State government	9	3.8
