**Student evaluations of teaching play an important role in the review of faculty, improvement of faculty instruction, and providing meaningful feedback to the instructor. Oklahoma State University recognizes that student evaluations of teaching are often influenced by students' unconscious and unintentional biases about the race, gender, age, or appearance of the instructor, even when there are no actual differences in the instruction or in what students have learned.**

**As you fill out the evaluation please keep this in mind and focus on your opinions on the instruction quality as well as the content of the course (the assignments, the textbook, the in-class material).**
